

NORBERT'S *Horse Trailers* Trailers

NORBERT'S *Trailers*

Tack compartment option on rear door swings open and out of the loading area for those hard to handle horses.

Norbert's own adjustable self-guiding coupler allows for effortless hook up.

Drop down feed doors now have hinged window bars running in a nylon track which can be folded up for extra ventilation in transport.

Larger square gooseneck, camper vents, camper doors and RV windows are available options for change room and living quarter areas.

Standard Features

- Adjustable easy guide coupler or king pin.
- Spray on rock guard with Aluminum protection package.
- Torsion axles
- Front and rear roof vents.
