

# NORBERT'S *Utility Trailers* Trailers

# NORBERT'S *Trailers*

Easy access, 4' slide in rear ramps with spring loaded pins compliment each utility.

All 12 ga. fenders are welded on solid with aluminum checker plate rock protection on front.

Complete sealed wiring makes for years of trouble free use.

Adjustable couplers are standard equipment on all trailers with GVW exceeding 10,000 lbs.

### Standard Features

- Rear Slide in ramps.
- Greaseable torsion axles.
- Protective front.
- Welded on fenders with 6'9" between fenders.
- 2 5/16" coupler
- Complete sealed wiring, conspicuity tape and break away kit.
- Fir decking
- Chain box with mesh bottom located in front floor on heavy duty model

All utilities are sandblasted then primed and painted in our down draft paint booth.

All Norbert utility trailers come with footed jacks so there is no need to keep a block of wood with you.
